

# Custom / Name Brand

## FAST FOOD AREA

We can help you increase your profits by assisting you in introducing a custom designed, name brand fast-food area into your facility.

You don't necessarily need to add on to your store to accommodate a food service area. This name brand food-service area was designed and built right into the existing cashier island.

We will help you connect with a name-brand fast-food chain to help increase your sales!

If you don't choose a name brand food service area, we can still design a food service area of your choice. This food service area features custom stainless steel cabinets, cold pans and sneeze guard.

### Our Mission and Company Profile

We, at PE SYSTEMS, are dedicated to fairness and to individual attention to the details of each clients project. Our goal is to design cost-effective facilities that increase your efficiency and profit. We are professionals in C-store and Food Service design and equipment sales. We have over 40 years of experience in designing innovative, attractive, efficient and profitable facilities. We can help you plan the layout of your facility or handle all the details for you.

For The Questions that have no answer...

For The problems you can't fix...

For anything you can't handle...

PE Systems is there.

## DESIGN

*Here at PE SYSTEMS, we have over 40 years of experience in designing innovative, attractive, efficient and profitable facilities. Our design team can help you plan the layout of your facility or handle all the details for you. Whether you are starting out with a brand new idea, expanding your menu, or re-working the layout of your C-store to promote increased sales, our design team will work with you and help you design a layout that will accomplish your goals. Next, our staff will determine the equipment that works best with your newly designed or re-designed store layout.*

*We represent a variety of equipment manufacturers, which means we'll select the equipment that best fits your needs, even if your facility requires a custom designed piece. We can design and provide you with equipment that fits your facility perfectly, not only in size but aesthetically as well. Whether it's a custom coffee and pastry center or a custom piece of stainless steel kitchen equipment that meets your unique needs, we've got you covered!*

*All together, we will provide you with a complete design and equipment package that will help you reach your goals. Our design packages include a layout of your facility, mechanicals, elevations and equipment specifications. We will gladly work with your architect and/or general contractor or allow us to suggest one for you.*

*Making every square inch of a convenience store work for you is an essential task. We can help you make sure your store is selling for you. Also we can help you design or re-design your store to maximize sales and direct the flow of traffic past your profit centers.*

*If you would like, we will prepare a traffic flow study of your facilities and recommend a store layout that increases your bottom line.*
